

Fujitsu recommends Windows Vista® Business.

ESPRIMO™ MOBILE U9200

- Designed for demanding mobile users, ESPRIMO™ Mobile is the perfect synthesis of form, function and style
- Genuine Windows Vista® Business
- Enjoy the viewing quality of 12.1-inch wide format WXGA TFT display with integrated 1.3 Mega Pixel camera
- High-speed connectivity everywhere with embedded LAN, WLAN, Modem and Bluetooth®

Specifications	
Platform	Intel® Centrino® Duo processor technology - Intel® Core™2 Duo Processor T7300 (2.0 GHz, 4MB L2 cache, 800MHz FSB) - Intel® GM965 Express Chipset - Intel® PRO/Wireless 4965AGN
Operating System	Genuine Windows Vista® Business
Display	12.1-inch WXGA TFT, 1280 x 800 pixels
Optical Drive	Dual Layer DVD Super Multi Writer
Memory	1GB DDR2 677MHz
Hard Disk	160GB
Battery	Up to 4hrs ¹ (6-cell Li-Ion 5200mAh)
Weight	1.9kg
Detailed Specifications	
Hard Disk Drive	SATA-150 5400rpm
Graphics	Integrated Intel® Graphics Media Accelerator X3100 with Intel® Clear Video Technology ² and DVMT ⁴ 4.0 delivers low-power, high-performance 2D/3D graphics with Shader Model 3.0.
High Definition (HD) Audio	RealTek ALC262 HD audio codec with dual built-in stereo speakers HD Audio-in: Mic-in HD Audio-out: Headphone-out
Communication	Optional 56K V.92 modem ⁵ , built-in 10/100/1000 ² Mbps Marvell 88E8055, Intel® PRO/Wireless 4965AGN network connection and Bluetooth® V2.0
User Interface	Keyboard: 86 keys, 19mm pitch 2.5mm key stroke Touch Pad with two mouse buttons
Card Slot	ExpressCard™ /34 support
Connector Interface	USB 2.0 x 3, VGA (external display), S-Video out (TV-out), Memory Card, RJ11 (Modem), RJ45 (LAN), Audio-in, Audio-out, Power Adapter DC-in
Security ³	User and supervisor BIOS password, Anti-theft Lock Slot
Dimensions	300mm (W) x 223mm (D) x 37mm (H)
Bundled Accessories ⁶	
AC Adapter	Input AC 100~240V, Output DC 20V/90W Adapter

The above information shows the general technical specifications of the product and does not represent actual configuration that would be sold in your region. For specific configurations and their availability, please check with your local distributors.

- Results obtained from BAPCO MobileMark2005 (Reader Workload) performed on systems with maximum battery life settings under laboratory testing environment. Actual battery life will vary based on screen brightness, sound volume settings, running applications, connected peripherals, power management settings, battery conditioning, and other customer preferences in real life situation.
- This term does not represent actual data rate of 1000/100/10Mbps and simply indicates compliance with IEEE 802.3, IEEE 802.3u and IEEE 802.3ab standards. Actual maximum data rate depends on network configurations, cable conditions as well as connected devices.
- BIOS Lock needs a supervisor/user password to access BIOS setup. BIOS settings can be configured to prompt for password at every first bootup or all bootup sequences. Anti-theft Lock Slot allows the use of a lock to physically secure the notebook.
- Dynamic Video Memory Technology (DVMT) dynamically responds to application requirement and efficiently allocates the proper amount of memory (max. 384MB) for optimal graphics and system performance. The memory size available to the Operating System will be less than the size of installed memory module.
- Intel® Clear Video Technology is a combination of video processing hardware and software technologies that delivers enhanced high-definition video playback, sharper images, precise colour control and advanced support for a wide range of digital displays interfaces, including High-Definition Multimedia Interface (HDMI).
- Please check actual bundling / Specification with country local distributor.

BAPCO MobileMark® 2005 is the premier notebook battery life and performance under battery life metric based on real world applications for Windows® XP platforms.

It is natural for all thin-film transistor (TFT) liquid crystal displays (LCD) to show a small number of missing or discoloured dots. These are commonly known as non-conforming pixels. This is a technology limitation of TFT LCD and does not represent a defect. Fujitsu warranty does not cover limitations in technology such as non-conforming pixels.

Specifications reflected above are engineering and hardware specifications. They do not represent actual usage or operating dimensions, sizes, performances and weights as these are dependent on factors such as operating temperature, type of operating system and application used, connected devices and accessories as well as hardware configurations of the notebook. Please check the compatibility of 3rd party accessories before purchase. Ambient temperature: 5° to 35°C / 41 to 95°F (operating), -15° to 60°C / 5 to 140°F (non-operating). Relative humidity: 20% to 85% RH (operating), 8% to 85% RH (non-operating). Please note that 1GB is equivalent to 1,073,741,824 bytes.
